## Final Project Guidelines

### Before the final

- 10 pts: Register your topic with me (you've all already done this)
- 30 pts: Provide me with details of how you did your analysis, including:
  - Details of software used
  - Specific commands used
  - Any data files
  - This can be in whatever format you want (Word doc, text file, R Markdown)
- 10 pts: I will try to reproduce what you've said you did. If it all works out, you get the full 50 points.

### Day of the final

#### **Presentation: Aim for 12 minutes + 2 for questions**

- 5 pts: Research question clearly states
- 10 pts: Appropriate background provided to understand your research question
- 10 pts: Methods clearly explained
- 10 pts: Conclusions and interpretation appropriate for the data used and analysis conducted
- 5 pts: Be polite and ask questions of your classmates. They worked hard.
